Why not take a guided stroll with Heian-kyo guide maps!

This ancient Kyoto map set - comprising the layout of the Heian-kyo reconstruction model, the walking guide to historical remains and the guide to the Tale of Genji - guides you through historical remnants, explains the points of interest in the Heian-kyo reconstruction model and decodes the complexities of the Tale of Genji. Hence, this map set is what you need to make your visit more informative.

Kyoto City promotes the concept of "a fascinating city putting people first". Thus, with a broad range of issues such as tackling environmental problems, encouraging tourism and energizing local communities on our agenda, we are aiming to make "Kyoto a pedestrians' paradise" where people and public transport are given priority. So, please help us by using public transport when visiting the museums in our city.
